Professional Summary

Junior Software Developer with hands-on experience building and maintaining **web applications, responsive user interfaces, backend services, and API-driven applications** using React.js, Angular, Next.js, TypeScript, JavaScript, Python, Django, Node.js, REST APIs, and SQL databases. Experienced in developing reusable frontend components, integrating REST APIs, implementing CRUD operations, search, pagination, filtering, sorting, debouncing, and lazy loading, as well as converting Figma designs into production-ready interfaces. Hands-on exposure to **AI and Machine Learning** using Python, OpenCV, BERT, NumPy, and Pandas, with foundational cloud knowledge in **AWS EC2, S3, and IAM**. Strong understanding of debugging, testing, error handling, Git/GitHub, database operations, performance optimization, and software development lifecycle practices. B.Tech graduate in Computer Science and Engineering, currently based in Dubai, UAE and available for immediate joining.

Technical Skills

- **Programming:** Python, JavaScript, TypeScript, SQL, Java (Basic), Object-Oriented Programming (OOP)
- **Frontend Development:** HTML5, CSS3, SCSS, JavaScript, TypeScript, React.js, Angular, Next.js, Tailwind CSS, Responsive Web Design
- **Web Development:** Responsive UI, Reusable Components, Figma to UI, UI Animations, Transitions, Smooth Scrolling, Search, Pagination, Filtering, Sorting, Debouncing, Lazy Loading
- **Backend Development:** Python, Django, Node.js, Flask (Basic), REST APIs, Backend Logic, CRUD Operations, API Integration
- **APIs & Integration:** RESTful APIs, JSON, Third-Party API Integration, Frontend–Backend Integration, Data Validation, API Testing
- **Databases:** MySQL, PostgreSQL, SQLite, SQL, Django ORM, Database Design, Database Operations
- **AI & Machine Learning:** NumPy, Pandas, OpenCV, Matplotlib, BERT, Machine Learning Fundamentals, NLP, Computer Vision Fundamentals
- **Cloud:** AWS EC2, AWS S3, IAM (Basic)
- **Software Development:** SDLC, Debugging, Testing, Error Handling, Performance Optimization, Application Maintenance
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Figma, Vercel, Render

Experience

UI Developer – Valoriz Digital (Mozanta Technologies), Trivandrum

April 2026 – July 2026

- Developed responsive and interactive web interfaces using **React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, and Tailwind CSS**.
- Converted **Figma designs into responsive, production-ready user interfaces** with consistent layouts across desktop, tablet, and mobile devices.
- Built reusable and modular UI components following clean and maintainable frontend development practices.

tices.

- Implemented **smooth scrolling, animations, transitions, hover effects, and interactive UI elements** to improve user experience.
- Developed responsive layouts with attention to usability, accessibility, visual consistency, and cross-browser compatibility.
- Collaborated with **UI/UX designers and developers** to translate design requirements into functional web interfaces.
- Integrated frontend interfaces with APIs and implemented **dynamic data rendering** where required.
- Debugged and resolved frontend issues related to layout, responsiveness, functionality, and browser compatibility.
- Optimized frontend performance, responsiveness, and overall user experience.

Software Developer – BlueRipples Technologies, Trivandrum

July 2025 – March 2026

- Developed and maintained responsive web applications using **Angular, React.js, JavaScript, HTML5, and CSS3**.
- Developed reusable UI components and responsive layouts for different screen sizes and devices.
- Integrated **RESTful APIs** with frontend applications to retrieve, process, and display dynamic application data.
- Implemented application features including **CRUD operations, search, pagination, filtering, sorting, and dynamic data rendering**.
- Implemented **debouncing** to optimize search functionality and reduce unnecessary API requests.
- Implemented **lazy loading** to improve application loading performance and responsiveness.
- Handled API responses, JSON data, validation, error handling, and frontend–backend communication.
- Performed **debugging, testing, troubleshooting, and performance optimization** to improve application reliability and user experience.
- Used **Git and GitHub** for version control, committing and pushing code changes during development.

Python Django Full Stack Developer Intern – Luminar Technolab

July 2025 – February 2026

Remote

- Developed web applications using **Python and Django** following structured full-stack development practices.
- Worked with **Django ORM, MySQL, REST APIs, and MVT architecture**.
- Developed backend functionality including **CRUD operations, API integration, data validation, and application workflows**.
- Built responsive frontend interfaces using **HTML, CSS, JavaScript, and Bootstrap**.
- Integrated frontend components with backend APIs and implemented dynamic data-driven functionality.
- Performed **debugging, testing, validation, error handling, and troubleshooting** during application development.

Projects

Smart Resume Analyzer – Python, Django, PyPDF2, SQL

- Developed a web-based application using **Python and Django** for automated resume analysis and information extraction.
- Implemented **PDF text extraction, resume scoring, skill detection, keyword analysis, and job-role recommendation** functionality.
- Developed backend processing workflows to transform unstructured resume data into structured analysis and recommendations.
- Integrated database operations and application logic to manage resume information and analysis results.

Anti-Ragging Solution Website – React.js, Node.js, MySQL

- Developed a responsive full-stack web application for reporting and managing incidents in educational institutions.
- Built responsive interfaces, interactive dashboards, and role-based authentication using React.js.
- Integrated React.js frontend components with **Node.js backend APIs** and MySQL database services.
- Implemented application workflows and dynamic data handling for incident reporting and management.

Virtual Interview Preparation Coach – Python, OpenCV, BERT, Machine Learning

- Developed an AI-powered application to simulate interview environments and provide personalized feedback.
- Implemented real-time emotion detection using **OpenCV** and sentiment analysis using **BERT**.
- Processed user inputs and generated personalized interview feedback using Python-based application logic.

Education

2021 – 2025	Bachelor of Technology (B.Tech) in Computer Science and Engineering Minor Specialization in Biomedical Engineering TKM Institute of Technology, Karuvellil, Kollam	CGPA: 7.95/10
2020 – 2021	Higher Secondary Education (Class XII) TKM HSS Karikode, Kollam	96.5% (Full A+)
2019 – 2020	Secondary School Leaving Certificate (SSLC) TKM HSS Karikode, Kollam	98% (Full A+)

Certifications

- Fundamentals of Artificial Intelligence – NPTEL, IIT Guwahati
- Introduction to Machine Learning – NPTEL, IIT Kharagpur
- React, Python (Basic) Certification – HackerRank
- Cloud SAP ERP Internship Certification – Innoval Digital Solutions
- Full Stack Web Development Workshop – TATHVA'22, NIT Calicut

Achievements & Activities

- Secured Second Prize in Inter-College Basketball Competition.
- Minor Specialization in Biomedical Engineering alongside B.Tech in Computer Science and Engineering.
- Participated in coding challenges, technical workshops, and hackathons.
- Volunteer Math Teacher under Project Ganitham, mentoring students from Grades 8–10.
