SUMMARY

Detail-oriented Software Developer with hands-on experience in full-stack web development using Python, Django, React.js, JavaScript, and TypeScript. Skilled in building responsive UI, integrating REST APIs, and developing scalable, user-centric applications following SDLC practices. Proven ability to translate business requirements into functional solutions through internship projects and AI-based applications. A quick learner with strong problem-solving skills, passionate about developing efficient software solutions in collaborative environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, Java (Basic)
- **Frontend:** HTML5, CSS3, SCSS, Tailwind CSS, React.js, Next.js
- **Backend:** Django, Node.js (Basic), REST API Integration
- **Database:** MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, VS Code, Figma, Postman
- **Cloud & SDLC:** AWS (Basic), Software Development Life Cycle (SDLC)
- **Networking:** IP Addressing, Subnetting, DHCP, DNS

SOFT SKILLS

Communication, Problem Solving, Teamwork, Leadership, Presentation Skills, Adaptability, Time Management, Documentation

INTERNSHIP EXPERIENCE

UI Developer Intern – Valoriz Digital (Mozanta Technologies), Trivandrum May 2026 – Present

- Developed responsive and modern user interfaces using Next.js, React, TypeScript, and Tailwind CSS.
- Converted Figma designs into pixel-perfect and production-ready web pages.
- Built reusable UI components to improve maintainability and development efficiency.
- Implemented responsive layouts ensuring compatibility across desktop, tablet, and mobile devices.
- Collaborated with designers and developers to deliver intuitive and user-friendly web experiences.
- Optimized website performance, accessibility, and user experience through modern frontend practices.

Software Developer Intern – BlueRipples Technologies, Trivandrum Nov 2025 – Feb 2026

- Developed responsive and user-friendly web applications using modern frontend technologies, ensuring seamless performance across devices.
- Implemented pagination, filtering, and sorting functionalities to efficiently manage and display large datasets.
- Applied debouncing and lazy loading techniques to optimize application performance, reduce API calls, and improve page load speed.
- Integrated REST APIs for real-time data retrieval and seamless frontend-backend communication,

with proper error handling and validation.

- Built reusable UI components and collaborated with cross-functional teams throughout the SDLC to deliver scalable and maintainable solutions.

Python Django Full Stack Developer – Luminar Technolab(online course) Jul 2025 – Feb 2026

- Gained hands-on experience in Python programming and backend development using the Django framework.
- Worked with Django MVT (Model–View–Template) architecture to build dynamic web applications.
- Used Django ORM and MySQL for database design, management, and data operations.
- Developed responsive web applications using HTML, CSS, and JavaScript.
- Built and integrated REST APIs to connect frontend and backend systems.

Data Science Intern – Quest Innovative Solutions

Mar 2025

- Trained and evaluated machine learning models for predictive analytics.
- Performed data preprocessing and feature engineering for improved model accuracy.

ERP, SAP & Cloud Computing Intern – Innoval Digital Solutions

May 2023

- Gained practical experience in SAP, ERP integration, and cloud-based business solutions.
- Assisted in automating business processes and improving workflow efficiency.

PROJECTS

Virtual Interview Preparation Coach – Python, OpenCV, BERT, Machine Learning

- Developed an AI-powered interview preparation platform to simulate real interview environments.
- Implemented real-time emotion detection using OpenCV and sentiment analysis using BERT.
- Generated personalized feedback to improve communication skills, confidence, and interview performance.

Smart Resume Analyzer – Python, Django, PyPDF2

- Developed a web-based application to analyze resumes and extract information from PDF documents.
- Implemented skill detection, resume scoring, and job-role recommendation features using keyword analysis.
- Generated insights and recommendations to help users improve resume quality and job readiness.

Anti-Ragging Solution Website – React.js, Node.js, MySQL

- Developed a full-stack web application for reporting and managing ragging incidents in educational institutions.
- Designed responsive user interfaces, role-based authentication, and interactive dashboards.
- Integrated AI-based feedback and emotion analysis features to enhance user engagement and system effectiveness.

EDUCATION

2021 – 2025	Bachelor of Technology (B.Tech) in Computer Science and Engineering Minor Specialization in Biomedical Engineering TKM Institute of Technology, Karuvellil, Kollam	CGPA: 7.95/10
2020 – 2021	Higher Secondary Education (Class XII) TKM HSS Karikode, Kollam	96.5% (Full A+)
2019 – 2020	Secondary School Leaving Certificate (SSLC) TKM HSS Karikode, Kollam	98% (Full A+)

CERTIFICATIONS

- Fundamentals of Artificial Intelligence – NPTEL (IIT Guwahati)
- Introduction to Machine Learning – NPTEL (IIT Kharagpur)
- React (Basic) Certification – HackerRank
- Python (Basic) Certification – HackerRank
- Cloud SAP Internship Certification – Innoval Digital Solutions
- Full Stack Web Development Workshop – TATHVA'22, NIT Calicut

ACHIEVEMENTS & ACTIVITIES

- Secured Second Prize in Inter-College Basketball Competition.
- Minor Specialization in Biomedical Engineering alongside B.Tech in Computer Science and Engineering.
- Participated in coding challenges, technical workshops, and hackathons.
- Volunteer Math Teacher under Project Ganitham, mentoring students from Grades 8–10.
